INITIAL CONSULTATION
NO RISK • NO OBLIGATION

We are a full-service web design and technology consulting company located in the greater Chicagoland area. We specialize in developing websites for all types of businesses either by building you a brand new site or improving your existing one.

Good consulting and web design services don't have to cost you an arm and a leg. When computers are down, it's costing you money. If you're not on the cutting edge of technology your business is losing money.

Every business needs a home on the web to compete in today's market. Contact **BOB Technology Consultation** for all your computing needs!

PC REPAIR & MAINTENANCE

BOB TECHNOLOGY

CONSULTATION can help you protect your important files and precious photographs from being lost forever. We have the knowledge to recover photos from PCs that don't boot to

the operating system. Whether it be PCs or laptops, we offer special services for home users to clean and protect your computer from viruses and spyware. You would never leave your windows and doors wide open for just anyone to come in, so why leave your computer wide open?

In today's world, you're connected to the internet 24x7. If you don't protect yourself, your privacy could be compromised. Don't sit on technical support lines for hours on end as they run down a list of possible solutions with no real idea if they can fix your issue or not.

Need your Wii, Xbox or other gaming system connected wirelessly to the internet? Ever wanted to listen to internet radio or watch movies from the comfort of your favorite seat in front of your normal tv? It's all possible and we make it happen.

WEBSITE DESIGN

BE YOUR OWN BOSS!

From small informational websites to larger sites with e-commerce and constantly changing content, your website is a vital sales tool.

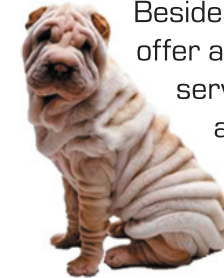

Today's market is tough and a website is key to remaining competitive. We can make your website a reality in a short amount of time and can accommodate any budget! We will either meet with you or have an initial telephone consultation to go over ideas for your site. We will then come up with a look and send you samples within a week.

Our fee includes:

- Initial consultation and samples until we get a look you love
- Registering your domain name
- Publishing the pages on the Internet through our web hosting provider
- Online marketing to get your site seen and picked up by search engines

GRAPHIC DESIGN

Besides website design, we also offer a full range of graphic design services. Whether you need an old logo spruced up, one created from scratch or other promotional materials like brochures, flyers, business cards and newsletters - we can do that! Your logo is what identifies your business. Make it memorable!

We will send a wide variety of samples via email to you shortly after your **FREE consultation** and we'll keep at it until achieving a look you love. We also offer website and graphic design package deals on a case by case basis. We will work with any budget!

DESIGN SERVICES

PRICING

BUSINESS RATES: PC and Network Audit -We come out to your business and perform a complete audit of your site. We'll give you the facts on what your network and computers need to run at their very best, ultimately saving you money! We will check service packs, storage capacity, memory, viruses, and other health indicators. **STANDARD RATE - \$75.00/HR.**

HOME AND PERSONAL COMPUTER RATES: We offer both on-site and remote support services as well as 24X7 Support, call us day or night. We're here to help you when you need us most. Virus removal, hardware upgrades, backup solutions, and pc optimization, we do it all. We'll quote you a price before we start. **STANDARD RATE - \$50-\$100 PER PC** (depending on effort required)

WEB SITE AND GRAPHIC DESIGN: FREE CONSULTATION to discuss your website or graphic design needs. We'll help you through every step of the process and explain it to you in a language that you can understand. You could have a custom, **one of a kind website for as little as \$299 and a custom logo for as little as \$99.**
